**What is good
design?**

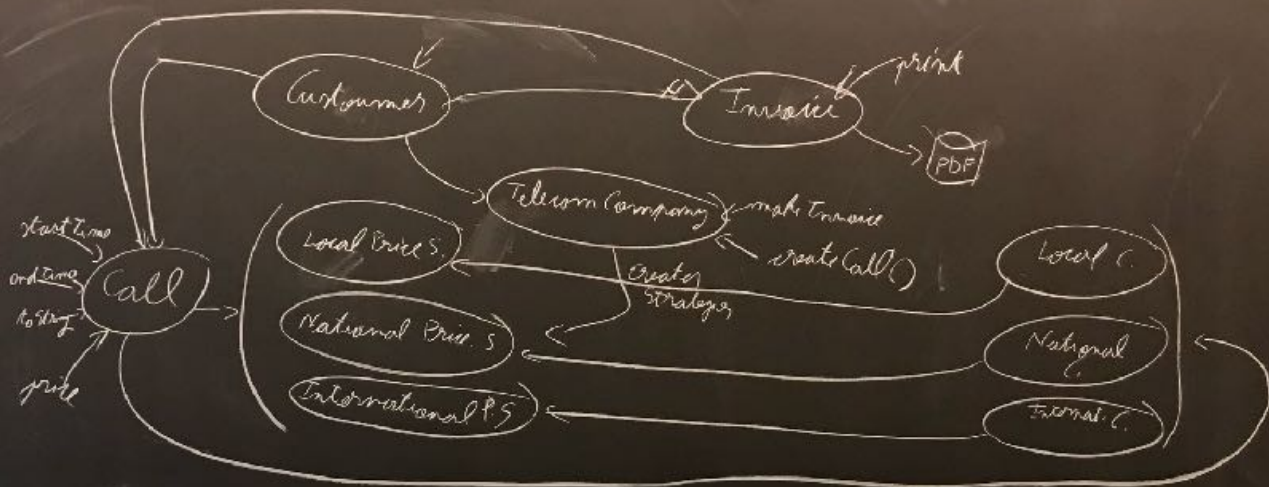

Task: Model a system that prints invoices for the customers of a Telco.

- There are 3 different types of calls: *local*, *national* and *international*.
- The cost of an international call is 2CHF per minute.
- The cost of a national call is 1.50CHF per minute.
- The cost of a local call depends if it was made during peak hour or not.
 - Peak hour cost is 1CHF per minute
 - Off-peak cost is 0.50CHF per minute.

Print the invoice of Andrei who made a 2 minutes national call, a 10 minutes international call, 3 local calls at peak time of 2 minutes each, and a local call at off-peak time lasting 20 minutes.

- There are 3 different types of calls: *local*, *national* and *international*.
